BOUFFANT CAP

Bouffant Cap is widely used for protecting hair for multiple beauty, body and hygiene reasons. It is used in the kitchen, medical, household, gardening accessory etc. Bouffant caps are made of non-woven breathable fabric.

Uses:

It is used to keep and maintain proper hygiene around other people while working in a hospital or parlour or kitchen.

FACE SHIELD

Shield Mask is a simple, transparent screen that covers the face and helps prevent infectious droplets from entering the eyes, nose and mouth. They are usually worn in conjunction with masks or respirators, blocking splashes and sprays from reaching the face and preventing the workers from touching their faces.

Uses:

Is a transparent screen that covers the face and helps prevent infectious droplets from entering the eyes, nose and mouth

EYE WEAR

PRODUCT CODE GI-ES-100

Regular eye wear with slim and light weight design. Panoramic clear polycarbonate lens for a clear field of VISION and optimum protection. Universal nose bridge, profiled temples and easy to wear for all day comfort impact, UV absorption, heat resistance.

SURGICAL GLOVES

PRODUCT CODE GI-2000

Surgical Disposable Nitrile Glove Blue is used during medical examinations and procedures to help prevent cross-contamination between caregivers and patients. It has a micro rough finish and meant for single use.

Uses:

It is used by doctors, nurses, examiners to do perform surgeries or conduct tests.

LATEX GLOVES

PRODUCT CODE GI-3000

Extra strength provides additional protection. The micro rough surface at the palm is designed for better gripping. Fully anatomical design to reduce hand fatigue. Softness provides superior comfort and natural fit. Micro-roughened surface provides excellent wet and dry grip. Easy donning and helps prevent rolling back. High strength and elasticity.

SHOE COVER

Disposable Shoe covers with rubber-bottomed grips are also used for anti-slip purposes. For example, when working in a clean room, controlled environment or in emergency services, an overshoe with sole grips is excellent at reducing the risk of falls and injury – as well as reducing causes for contamination.

Uses:

It is used to keep and maintain proper hygiene around other people while working in a hospital or parlour or kitchen.
