

# FALL PROTECTION **GI-SK-01** KARABINER

GRAVITECH OFFERS HIGH PERFORMANCE  
STEEL SCREW LOCKING KARABINER (GI-SK-01)

## Description:

Karabiners for fall protection meet EN standards for use as part of a fall protection system. They create a connection between two anchoring points, such as connecting lanyards/self-retracting lifelines (SRLs) to anchors or connecting lanyards to harnesses. These carabiners have a minimum tensile strength of 5000 lbs. and a locking mechanism that prevents the carabiner from opening on its own

## AS PER EN 362:2004

### Features / Design:-

- Material: Alloy Steel
- Screw Lock for extra safety
- Minimum Breaking Strength: 25 kN
- Finish Available: Silver/Golden Yellow Galvanized
- Net Weight: 170gm
- Conformity: EN 362:2004 Class B
