

FALL PROTECTION **GI-AS-01** WEBBING SLING

Description:

WEBBING WORK POSITIONING LANYARD

Made of 30mm Polyester High Strength Webbing Stitched webbing Loop at both ends.
Karabiner (GI 112) provided at one end and one karabiner (GI 112) at other end for attachment.
Easy adjustment by using B Ring.
30 mm Polyester High Strength Webbing.
Adjustable length up to max. 2 mtr.
Rope breaking strength min. 25 kN
Maximum Length 2.00mtr.

METALLIC ASSEMBLY

KARABINER GISSK11

Material breaking strength finish Alloy steel 25 kN (Min.)
Silver/Golden Yellow Galvanized

ALLOY STEEL B RING

Material breaking strength finish Alloy Steel 15 kN (Min.)
Deburred and polished.
Silver/Golden Yellow Galvanized.

VITAL TEST COMPLIANCE

STATIC STRENGTH

Conformity Sustains a force of 15 kN per 3 minutes without separating, tearing or rupture of the lanyard or any element connected to it.

AREA OF USE

Working at Height

Aviation/ Railways/
Transport/ Logistic

Construction/ Infrastructure
